## **Introduction**

This plan is drawn up in accordance with the planning duty in the Equality Act 2010. It draws on the guidance set out in “Accessible Schools: Planning to increase access to schools for disabled pupils”, issued by DfES in July 2002. This document states that the purpose of an Accessibility Strategy or Plan is for:

- (a) increasing the extent to which disabled pupils can participate in the school curriculum;
- (b) improving the physical environment of schools to increase the extent to which disabled pupils can take advantage of education and associated services;
- (c) improving the delivery to disabled pupils of written information which is provided to pupils who are not disabled. This should be done within a reasonable period of time and in formats which take account of views expressed by the pupils or parents about their preferred means of communication.

The plan also considers the guidance contained in ‘Supporting pupils at school with medical conditions’ (issued by the DfE in Sept 2014) which states that: ‘Pupils at school with medical conditions should be properly supported so that they have full access to education, including school trips and physical education.’

The Special Educational Needs and Disability Code of Practice issued in Jan 2015 also ensures that Schools meet their responsibilities in supporting young people equally.

## **Definition of Disability**

Disability is defined by the Disability Discrimination Act 1995 (DDA):  
“A person has a disability if he or she has a physical or mental impairment that has a substantial and long-term adverse effect on his or her ability to carry out normal day to day activities.”

## **Key Objective**

To reduce and eliminate barriers to access to the curriculum and to full participation in the school community for pupils, and prospective pupils, with a disability as described or above or with a disability which may be temporary due to ill health.

## **Principles**

Compliance with the DDA is consistent with the school’s aims and equal opportunities policy, and the operation of the school’s SEN policy;

The school recognises its duty under the DDA not to discriminate against disabled pupils in their admissions and exclusions, and provision of education and associated services not to treat disabled pupils less favourably

To take reasonable steps to avoid putting disabled pupils at a substantial disadvantage

To publish an Accessibility Plan

In performing their duties, governors and staff will have regard to the DRC Code of Practice (2002)

The school recognises and values parents' knowledge of their child's disability and its effect on his/her ability to carry out normal activities, and respects the parents' and child's right to confidentiality

The school provides all pupils with a broad and balanced curriculum, differentiated and adjusted to meet the needs of individual pupils and their preferred learning styles; and endorses the key principles in the National Curriculum 2014 framework, which underpin the development of a more inclusive curriculum

Setting suitable learning challenges

Responding to pupils' diverse learning needs

Overcoming potential barriers to learning and assessment for individuals and groups of pupils

## **Activity**

This section outlines the main activities which the school will undertake, and is planning to undertake, to achieve the key objective (above).

### **a) Education & related activities**

The school will continue to seek and follow the advice of LA services, such as specialist teacher advisers and SEN inspectors/advisers, and of appropriate health professionals from the local NHS Trusts.

The school's arrangements to improve access to the curriculum is through devising and implementing appropriate staff training and development

### **b) Physical environment**

The school will take account of the needs of pupils and visitors with physical difficulties and sensory impairments when planning and undertaking future improvements and refurbishments of the site and premises, such as improved access, lighting, acoustic treatment and colour schemes, and more accessible facilities and fittings.

Plans for improvement in school's premises are contained within the school development plan. The monitoring and evaluation process is conducted by the Site Manager and the Admin/Finance Officer with overall responsibility held by the Headteacher. Site Health & Safety inspections are held termly and annually and reported to the Headteacher.

c) Provision of information

The school will make itself aware of local services, including those provided through the LA, for providing information in alternative formats when required or requested.

d) Financial planning and control

The Headteacher with Senior Management Team, together with the Resources Committee will review the financial implications of the School Accessibility Plan as part of the normal budget review process. The objective is that over time School Accessibility Plan will be integrated into the School Development Plan.

### **Action Plan**

See attached (Appendix 2)

### **Linked Policies**

This Plan will contribute to the review and revision of related school policies, e.g.

- School Development Plan incorporating the Building and site development plan
- Staff training and development plan
- SEN policy
- Equal Opportunities policy
- Curriculum policies
- Governor training plan
